Amendment to FY-84 Omnibus Supplemental

Attached are a revised set of talking points for your use in our effort to telephone the 148 swing Members whose support we are seeking for the Kemp amendment. Please disregard the talking points we sent under cover of our memorandum dated 27 July.

Please let me reiterate that your calls should be placed today and tomorrow in anticipation of a favorable rule from the House Rules Committee and a floor vote as early as Wednesday.

Please provide a report on the results of your calls to H (632-8728/29 and 632-8722) and identify Members who need further attention. This is very important as we need to estimate the support we have for the Kemp substitute.

TALKING POINTS

-- We are deeply concerned about the extremely low levels of funding for Central America contained in the FY-84 Omnibus Supplemental Appropriations Bill, as marked up by Chairman Whitten's Committee on July 26.

-- The Committee approved approximately one-third of our request for economic assistance, and less than one-tenth of our original request for military assistance for Central America.

-- These amounts are simply inadequate to our task of stopping Marxist expansion in the Caribbean and promoting economic recovery and development in Central America.

-- The process of strengthening democracy in El Salvador is continuing, as exemplified by the recent elections, but cannot realistically be expected to succeed without adequate economic and military assistance.

-- Congressman Kemp plans to offer an amendment on the floor when the bill is considered later this week, which would allow us to carry forward the recommendations of the President's Bipartisan Commission on Central America.

-- For these reasons, we ask your support for Representative Kemp's amendment.

-- If you have any questions or desire any additional information, we would be pleased to assist you.
